

DANILO BUTTAFOCO

UX/UI DESIGNER & SCRUM MASTER

Stockholm, Sweden
buttafocodanilo@gmail.com

danilobuttafoco.se

PROFILE

I like being involved from the very beginning of a product and staying with it all the way through. From understanding the problem and defining requirements, to UX/UI design, development, testing, launch and improvements after go-live. As a UX/UI Designer and Scrum Master with a background in front-end development, I work closely with both developers and stakeholders to make sure what we build actually works — both for the users and the business.

EXPERIENCE

ITREON 2024 — Present

SCRUM MASTER & UX/UI DESIGNER

- Coordinate development across several digital products and internal platforms
 - Manage and prioritize requirements, bugs and feature requests
 - Translate business needs into requirements, user flows and UX/UI solutions
- Follow features from discovery through design, development, testing and release
 - Conduct QA, UAT and usability testing ahead of production releases
 - Support developers with requirements and design clarification

Products — AMS · Fast Track · Take Back / TB Portal · Itreon Market

SVEA SOLAR sveasolar.se 2023 — 2024

UX/UI DESIGNER INTERN

Contributed to the redesign and modernization of the company website — UX research, improved navigation and information architecture, responsive wireframes and prototypes presented and iterated with stakeholders.
